JEAN FRANCOIS D'OR | LOUDORDESIGN STUDIO | INDUSTRIAL DESIGNER

HIS SIMPLE, UNPRETENTIOUS, LOGICAL OBJECTS APPEAL AS MUCH ON FOR THEIR EVIDENT, CLEARLY PERCEPTIBLE DESIGN AS WELL AS THEIR DISCRETE POETRY.

Jean-françois D'Or graduated at ENSAV La Cambre in Brussels in 1998 since which time he has built up solid and varied experience. Following a project in New York lasting several months, he was taken on by Light brand where he worked closely with established and demanding designers such as Maarten van Severen and Hans de Pelsmacker.

In 2003, he set up his own industrial design office : Loudordesign studio.

His approach takes account of company imperatives as well as user needs and is tempered by the desire to reach a market; his products set out to enrich our environment.

Exploring numerous materials, Jean-françois D'Or brings out their beauty without ostentation. His simple, unpretentious, logical objects appeal as much on for their evident, clearly perceptible design as well as their discrete poetry.

Distributed by Cinna, Domani, Interni edition, Konstantin Slawinski, Jongform, Ligne roset, Toss b, the Conran shop among others, he has found his way to international success. His work has just been awarded an henry van de velde quality label.
